

**Synopsis**

*A snapshot of the chapter*

Beginning with the last paragraph of chapter 18 (vss. 24-28), we have an account of Paul's third missionary journey through Asia Minor and Greece. The events of chapter 19 tell of his time at Ephesus, the location at which he spent a total of three years (20:31). The chapter tells of his finding disciples who had not heard of the Holy Spirit (1-10). It explains that Paul did miracles there and converted many, including some who having practiced magic burned their books of great value. It tells of a great riot instigated by a craftsman who made shrines to the goddess Diana and intended to stop the preaching of the gospel. The city assembly came together and considered all these matters against Paul and the Christians.
